# Index to Volume 9 Subjects

- Abscess**  
chronic granulomatous disease, 79  
pseudomonal infection of ear canal and, 105
- Acetic acid, ototoxic effects of, 329-330**
- Acoustic neuroma**  
acoustic reflex, effect on, 214  
cochlear blood flow, effect on, 318
- Acoustic reflex in multiple sclerosis, 210-216**
- Acoustic trauma**  
cochlear blood flow, effect on, 318  
dextran therapy for, 320  
hyperbaric oxygen therapy for, 55
- Actinomycosis, cervicofacial and thoracic, 54**
- Adenoids**  
anatomy of, 323  
otitis media with effusion, effect of, 323-325
- Adenosine**  
in angiogenesis, 269-270  
in metabolism-microcirculation coupling, 268  
vascular smooth muscle, effect on, 294-295  
as vasodilator metabolite, 268
- Adenovirus, 132**
- Adhesins, bacterial, 131**
- Air embolism, 53, 55**
- Albumin-induced otitis media**  
corticosteroid therapy for, efficacy of, 142-148  
protease inhibitor therapy, efficacy of, 142-148  
round window permeability characteristics in, 34-40  
thiol compound stimulated recurrence of, 111-116
- Anesthesia, for phonosurgery, 12-17**
- Angiogenesis, 269-271**  
adenosine in, role of, 269-270  
hyperbaric oxygen therapy, effect of, 53, 54  
peptide growth factors in, role of, 270  
tissue hypoxia in, role of, 269
- Angiotensin II**  
arteriolar and venular contraction, effect on, 271  
cochlear blood flow, effect on, 304-305, 308
- Ankylosis, stapedo-ovalar, 68**
- Antibiotics**  
for chronic granulomatous disease, 82  
for chronic sinusitis, 30.33  
cortisporin otic suspension, *see* Cortisporin otic suspension  
for external otitis, 55  
for necrotizing fasciitis, 55  
for osteomyelitis of mandible, 54  
for pseudomonal infection of ear canal, 104-105  
for radiation-induced caries and osteoradionecrosis, 54  
round window permeability of, 38, 165-171
- Antrostomy, nasal, 30-33**
- Aprotinin therapy, 142-148**
- Arterioles, 264**  
adenosine, effect of, 268  
adenosine deaminase effect on, 268  
angiotensin II effect on, 271  
contraction of, 264, 266-268  
hormonal effect on, 264  
hypertension, effect of, 273-274  
hypertrophy of walls of, 273  
inflammation, effect of, 274  
metabolic mechanisms affecting, 264-266, 269  
of modiolus, 279  
neurotransmitter effect on, 264  
of scala media, 285-286  
of scala tympani, 286  
of scala vestibuli, 283-285  
of spiral lamina, 279-282, 289  
sympathetic nervous system effect on, 271  
systemic arterial pressure, role in, 264  
terminal branches of, 264  
theophylline effect on, 268  
tissue oxygenation effects on, 266-269  
transmural pressure of, 269  
vascular resistance, role in, 264  
vasopressin effect on, 271  
venous pressure effect on, 268-269
- Arteriosclerosis**  
age-related, 263  
pentoxifylline therapy for, 320
- Arthus reaction, 111, 115**
- Aspartate labeling of efferent innervation of cochlea, 6-11**
- Auditory nerve in acoustic reflex, 210**
- Auricular flap**  
pedicled, 232  
superiorly based, 232-237  
postauricular area, 232
- Autoimmune diseases**  
otosclerosis, 68  
pentoxifylline therapy for, 320
- Bacterial infection**  
adherence of organism to host cells for, 127-134  
chronic granulomatous disease from, 81  
chronic sinusitis from, 31-32  
*Hemophilus influenzae*-induced otitis media, 127-134  
hyperbaric oxygen therapy, effect of, 53  
*Klebsiella pneumoniae* induced otitis media, 83-89  
pneumococcal-induced otitis media, 97-101
- Basilar membrane**  
blood vessels of, 282-283, 286-289  
perilymphatic fistula, effect of, 247, 252, 254
- Blood flow**  
autoregulation of, *see* Vasoregulation  
cochlear, *see* Cochlea, blood flow of  
liposuction, effect of, 106-110  
microcirculation, *see* Microcirculation  
palatal carcinoma, effect of, 155-160
- Blood pressure**  
arterioles in, role of, 264

- baroreceptors of, 271
- cochlear blood flow, effect on, 303-307
- decreased, 271
- hormonal control of, 271
- increased, see Hypertension
- neural reflex control of, 271
- Blood vessels
  - arterioles, see Arterioles
  - capillaries, see Capillaries
  - cochlear, see Cochlea, vascular anatomy of
  - venules, see Venules
- Bone destruction, cholesteatoma-induced, see Cholesteatoma, middle ear, bone destruction due to
- Bradykinin, 142, 146-147
- Brainstem nuclei
  - in acoustic reflex, 210
  - in efferent cochlear and vestibular innervation, 6-11
  - in viremic spread to inner ear, 135
- Bronchitis, 153
- Burn injuries, 53
- Caldwell-Luc procedure, 30-33
- Cancer
  - head and neck, see Head and neck cancer
  - laryngeal, see Laryngeal cancer
  - lung, see Lung cancer
  - oral
    - palatal, see Palatal carcinoma
    - second primary cancers of, 151-152
- Capillaries, 264
  - angiogenesis of, 269
  - continuous, 271
  - fenestrated, 271
  - hypertension, effect of, 273-274
  - lymphatic, 272
  - of modiolus wall, 279
  - role of, 264
  - of scala media, 285-286
  - of scala tympani, 286
  - of scala vestibuli, 283-285
  - of stria vascularis, 283-287
  - transcapillary fluid exchange among, 271-272
  - venous hypertension, effect of, 272
  - precapillary sphincter of, 264
- Carbogen therapy, 319
- Carbon dioxide laser, 162
- Carbon monoxide poisoning, 53
- Caries, dental, 54
- Cefaclor therapy for chronic sinusitis, 30-33
- Cell cultures
  - melanoma, see Melanoma cell lines
  - of microcirculation, 266
  - otosclerotic bone, see Otosclerotic bone, cell cultures of
- Cerebellopontine angle tumors, 213, 214
- Children
  - cholesteatoma of, 171
  - chronic granulomatous disease of, 82
  - cytomegalovirus infection of, 135-136
  - eustachian tube lumen size of, 195-198
  - external otitis of, 102
  - otitis media of, acute, 97
  - recurrent respiratory papillomatosis of, 161
- Chinchilla
  - cochlea of, quinine effects on drugs toxic to, 238-243
  - middle ear of
    - acute otitis media in, 97
    - anatomy of, 58-67
    - antigen-induced otitis media in, 111-116, 142-148
    - Hemophilus influenzae* adherence to, 127-134
    - immune complex-induced otitis media in, 199-209
    - immune-mediated otitis media in, 199-209
    - round window permeability in, otitis media effect on, 34-40
    - topical antibiotics with propylene glycol, effect of, 1-5, 180-188
- Cholesteatoma, middle ear, 165-172
  - bone destruction due to, 117-126
    - comparative analysis of bone surfaces in, 119-120
    - demineralization process, 123, 125
    - dissolution of inorganic substances into otorrheal fluid, 123
    - fatty acids in, role of, 122-123
    - laser-Raman spectroscopy of, 117-126
    - light and electron microscopy of, 117
    - mechanism of, 117-118, 122-125
    - model simulation of, 118-119
    - osseous fragment specimens for analysis of, 119
    - osseous fragments inside cholesteatoma matrix, 121-122
    - pH of specimen solution, effect of, 120-121
    - radiographic examination of, 117
    - remineralization process, 123-125
    - theoretical considerations in measurements of, 118
  - congenital vs acquired, 171
  - Cortisporin otic suspension-induced, 165-171, 180-188
    - etiology of, 165
    - mechanism of formation of, 170-171
    - propylene glycol-induced, 165-171, 180-188
    - sites of, 167-171
  - Choline chloride, 238, 241
  - Cinematography of vocal fold vibration, 173
  - Ciprofloxacin therapy for external otitis, 105
  - Cis-retinoic acid
    - for recurrent respiratory papillomatosis, 162-163
    - toxicity of, 163
  - Cochlea
    - basilar membrane of
      - blood vessels of, 282-283, 286-289
      - perilymphatic fistula, effect of, 247, 252, 254
    - blood flow of, 263
      - acoustic trauma, effect of, 318
      - anatomic considerations of, 302-303
      - angiotensin II, effect of, 304-305, 308
      - autonomic nervous system, effect of, 304, 307-308
      - autoregulation of, 310-315
      - blood flow of other organs vs, 303
      - blood hemodynamics, effect of, 304, 308
      - blood pressure, effect of, 303-307
      - carbon dioxide, effect of, 304, 306-307, 311-312, 319
      - constancy of, 303
      - control of, mechanisms of, 291, 302-316
      - deoxyglucose trapping measurements of, 292-295
      - dextran, effect of, 319-320
      - epinephrine, effect of, 304-306, 308
      - estrogen, effect of, 308
      - extrinsic factors controlling, 307-308
      - functional role of, 295, 302
      - histologic examination of, 292, 295

- hormonal effects on, 304, 308
- hydralazine, effect of, 306
- hydrogen clearance measurements of, 295
- hyperbaric oxygen, effect of, 319

  - cochlear blood flow, effect on, 308, 320
  - for inner ear disorders, 320
- Perilymphatic fistula, 244-255
  - air pressure change in middle ear, role of, 250
  - aspiration of perilymph, effect of, 245-249
  - basilar membrane, effect on, 247, 252, 254
  - CSF pressure in, role of, 250
  - cochlea, effect on, 247-254
  - electrophysiologic recordings of effects of, 245-254
  - histopathologic analysis of, 245-254
  - mechanisms of formation of, 250
  - organ of Corti, effect on, 244, 252, 254
  - perilymph-endolymph pressure balance, change in, 250
  - Reissner's membrane, effect on, 244, 247-254
  - scala media, effect on, 252
  - scala tympani, effect on, 250, 252, 254
  - scala vestibuli, effect on, 252
- Petrosectomy, 237
- Pharynx
  - bacterial adherence to epithelium of, 131
  - ciliary activity in, 325
  - granulomatous mucositis of, 81
  - pectoralis major myocutaneous flap for reconstruction of, 106
- Phenylephrine effect on cochlear blood flow, 306, 308
- Phonation induction, 12-17
- Phonosurgery, 12-17
- Photodynamic therapy, 19-20, 28
  - definition of, 19-20
  - historical background of, 19-20
  - human melanoma cell line, effect on, 28
- Photoglottography
  - technique of, 173-179
  - of transtracheal-induced phonation, 12-17
- Platelets, 274
- Pneumococcal infection, otitis media from, 97-101
- Podophyllin therapy, 162
- Polymyxin B ototoxicity, 331-332
- Polyoma virus, 161
- Postauricular artery and vein, 232
- Potassium
  - cochlear blood flow, effect on, 312
  - vascular smooth muscle, effect on, 294-295
- Progesterone effect on cochlear blood flow, 308
- Propylene glycol in topical otic preparations
  - cholesteatoma from
    - dosage as factor in, 180-188
    - histologic examination of, 182-186
    - migration and metaplastic theory of formation of, 185-187
    - sites of formation of, 165-171
  - fibrous adhesions and serous effusions from, 1-5, 181, 184
  - inflammatory reactions to, 1-5, 165-171, 180-188, 329-334
  - round window as access route for, 329, 334
  - tympanic membrane perforation from, 1-5, 165-171, 184-185
- Prosthetic ear, 237
- Pseudomonal infection of ear canal, 102-105
- Pseudorabies infection, 135
- Quinine
  - choroid plexus, effect on, 238, 242
  - eighth nerve action potential, effect on, 241-242
  - ethacrynic acid ototoxicity, effect on, 238-243
  - furosemide ototoxicity, effect on, 238-243
  - stria vascularis, effect on, 241-242

- Radiation therapy**  
 dental caries from, 54  
 hyperbaric oxygen therapy for, 53-54  
 local oxygen levels, effect of, 155  
 osteoradionecrosis from, 53, 54  
 skin flaps vs skin grafts, use of, 234  
 soft tissue necrosis from, 54
- Raleigh scattering, 118**
- Raman scattering, 118**
- Rats**  
 anatomy of middle ear of, 97  
 efferent cochlear and vestibular neurons of, 6-10  
 middle ear cholesteatoma of, 165-171  
 palatal carcinoma of, blood flow distribution in, 155-160  
 round window instillation of injurious agents in, 327-335
- Recurrent respiratory papillomatosis, 161-164**
- Reissner's membrane**  
 blood vessels of, 282  
 in inner ear malformation, 229  
 perilymphatic fistula, effect of, 244, 247-254
- Reovirus infection, 135**
- Respiratory syncytial virus, 132**
- Reticular nucleus, caudal pontine, 6**
- Rhabdomyosarcoma of infratemporal fossa, 54**
- Rhinomanometry, 336-340**
- Rhodamine-123 dye, 19-28**
- Round window**  
 as access route for drug administration, 327-335  
 albumin permeability of, 34-40  
 anatomy of, 64  
 granulomatous tissue of, 333  
 mucosa of, disease effects on, 332-333
- Scala media**  
 blood vessels of, 285-286  
 oxygen tension measurements in, 293  
 perilymphatic fistula, effect of, 252
- Scala tympani**  
 blood vessels of, 286  
 perilymphatic fistula, effect of, 250, 252, 254
- Scala vestibuli**  
 blood vessels of, 283-285, 288  
 perilymphatic fistula, effect of, 252
- Scalp flaps, 237**
- Semicircular canals, malformation of, 226**
- Septoplasty**  
 airway improvement after, 340  
 indications for, 336, 338  
 rhinomanometry calculations for, 336-340
- Simian virus 40, 161**
- Sinusitis, acute, 33**
- Sinusitis, chronic**  
 antibiotic therapy for, 30, 33  
 causative agents of, 31-32  
 hypoxia of sinus mucosa from, 32  
 surgical therapy for, 30-33  
 adjuvant antibiotic therapy, 33  
 Caldwell-Luc procedure, 30-33  
 endoscopic, 33  
 nasal antrostomy, 30-33  
 radiographic changes after, 32-33
- Skin flaps and grafts**  
 auricular, 232-237  
 hyperbaric oxygen therapy for edema reduction after, 53, 55  
 pectoralis major myocutaneous, 106-110  
 radiation therapy considerations, 234  
 trapezius myocutaneous flap, 237
- Smoke inhalation, 53**
- Smoking and cancer, 152-153**
- Spiral ganglion cells of cochlea**  
 cell density measurements of, 47-51  
 graphic reconstruction measurements of, 47, 49-50  
 malformation of, golden hamster, 228  
 methods of quantification of, 47-51  
 viral infection of, 135-140
- Spiral lamina of cochlea**  
 blood vessels of, 279-282, 289  
 potassium effects on, 295
- Spiral modiolar artery and vein, 278-280, 286-287**
- Squamous cell carcinoma**  
 interferon therapy for, efficacy of, 217-223  
 palatal, blood flow in, 155-160  
 second primary cancers of, 152
- Stapedectomy, 244**
- Stapedius muscle, 64-65**  
 contraction of, acoustic reflex, 210-216  
 innervation of, 210
- Stapes**  
 anatomy of, 63-64  
 otosclerosis of, 70
- Steroid therapy**  
 for allergic reactions, 142  
 contraindications to, 147  
 for inner ear diseases, 318, 321  
 inner ear injury from, 147  
 for laryngeal papillomas, 162  
 mechanism of action of, 142  
 for otitis media, antigen-induced, 142-148  
 round window permeability, effect on, 35, 39-40, 147
- Stria vascularis**  
 choroid plexus cells vs cells of, 238  
 ethacrynic acid, effect of, 238  
 furosemide, effect of, 238  
 inner ear malformation, effect of, 228-229  
 quinine, effect of, 241, 242  
 round window perforation, effect of, 254  
 viral infection of, 135
- Stroboscopy of vocal fold vibration, 173-179**
- Superficial temporal artery and vein, 232**
- Temporal bone**  
 auricular flap for repair of defect of, 232-237  
 middle ear cholesteatoma destruction of, 117-125  
 osteoradionecrosis of, 54
- Tensor tympani muscle**  
 anatomy of, 64-65  
 innervation of, 210
- Theophylline, 268**
- Thermography, 155**
- Thiol compound-stimulated recurrence of otitis media, 111-116**
- Tinnitus**  
 nicotinic acid therapy for, 318, 319  
 vascular disease-induced, 317

- Topical ear preparations, *see* Otic preparations, topical
- Tracheostomy, 12, 16-17
- Trapezius myocutaneous flap, 237
- Trapezoid body, ventral nucleus of, 6
- Triamcinolone therapy for otitis media  
efficacy of, 142-147  
round window permeability changes and, 35, 39-40
- Tumors  
acoustic neuroma, 214, 318  
blood flow perfusion of, 155-160  
cancer, *see* Cancer  
cerebellopontine angle, 213, 214  
hyperbaric oxygen therapy for, 55-56  
papillomas, *see* Papillomas  
radiation therapy for, *see* Radiation therapy  
rhabdomyosarcoma, 54
- Tympanic membrane and cavity  
accessory, 66  
anatomy of, 59-60  
cholesteatoma of, 166-171, 184  
endotoxin inoculation into, otitis media from, 83-89  
immune complex inoculation into, 206  
mucociliary system of, 87-89  
otitis media, effect of, 99  
pars flaccida of, 66  
propylene glycol-induced injury to, 165-171, 184-185  
species variations in, 66
- Tympanometric acoustic reflex testing, 210-216
- Vaccinia virus, 139
- Vascular disorders  
arteriosclerosis, 263, 320  
diabetes mellitus, *see* Diabetes mellitus  
inner ear, *see* Inner ear, vascular diseases of
- Vasopressin  
arteriolar and venular contraction, effect on, 271  
cochlear blood flow, effect on, 308
- Vasoregulation  
angiogenesis and, 269-271  
of cochlear blood flow, 302-315  
local factors in, 266-271, 310-315  
metabolic theory of, 266-268, 310  
metabolic/myogenic interactions in, 269, 310  
myogenic theory of, 268-269, 310  
systemic factors in, 271, 302-310
- Venous pressure, 268-269
